SEAVIEW
CHRISTIAN COLLEGE

Educating for Eternity • Equipping for Life

COLLEGE MOTTO

Educating for Eternity – Equipping for Life.

MISSION AND PURPOSE

Seaview Christian College aspires to be a Christ-centred learning community where students can develop a passion for lifelong learning that values creativity, excellence, resilience, and faith. Our goal is to provide every student with a positive, exciting, and solid foundation through the provision of real care and understanding in an environment of quality education.

This foundation enables a sense of belonging, security and engagement in learning, and provides an excellent launch pad for life.

In John 10:10, Jesus said:

*“...but I came to give life
– life in all its fullness.”*

Seaview Christian College desires to shape young men and women of character, who are equipped to meet life's challenges using their God-given gifts and talents, and free to pursue a life of promise, purpose and hope.

We do this by:

- Setting high academic and social standards
- Providing quality independent schooling within a Christian atmosphere of love, respect, peace and discipline
- Establishing positive teacher-student working relationships
- Valuing student ability and personal effort

CURRICULUM

Our curriculum includes both the formal and the informal curriculum which involves the entire learning environment as we value the holistic child. The Bible serves as the ultimate criterion for our curriculum. It is relevant and authentic as every day is an opportunity to learn and grow.

The College desires that all students engage in a balanced program during their pre-compulsory, compulsory and post-compulsory years in line with Government requirements.

The formal curriculum is permeated with the skills and processes that develop literacy, numeracy, life-skills, and critical thinking. The curriculum at the College promotes a Christian Worldview and a need and desire to be life-long learners.

Our curriculum is made up of the following subjects:

English | Mathematics | Science | Health and Physical Education (including gymnastics) | Design and Technology (STEM) | Information Technology | Christian Living | LOTE: AUSLAN | The Arts: Art, Drama, Music and Dance | Food Technology

Junior Primary | Reception–Year 2

Children relish the wonderful learning journey they embark on as they complete their first year of schooling in our Reception program. Our personalised approach is based on a Christian belief that God has made each one of our children precious with their own gifts and talents. Our Junior Phase classes are places where learning, love and laughter go hand in hand.

Upper Primary | Years 3–6

We support our students through an enriched combination of pastoral care, outdoor education, literacy and numeracy monitoring, sports, Chapel program, leadership training, values program and a strong relational and personalised approach to learning that aims to strengthen individuals and the whole group. Seaview Christian College's Primary School Phase not only prepares our students for future learning, but teaches to enjoy the wonderful time of life childhood is.

Middle Phase | Years 7–9

At Seaview, Year 7 students have already integrated into our secondary school. Where the students have embraced the practical, hands on subjects like Food Technology, Robotics, Woodworking and Textiles. Encouraging our students to engage with technology through online learning is a vital part of the middle phase, in readiness towards senior phase. Students also have the opportunity to begin their exploration towards careers and navigating the pathway forward.

Senior Phase | Years 10–12

Undertaking studies in the Senior Phase of Secondary School provides students with a wonderful opportunity to maximise their effort in their final school years. The Senior Phase program at Seaview Christian College will offer a clear balance between academic challenges and pastoral support to equip and support students towards positive pathways of success in life, work and learning.

VET and SACE

Our students in Senior Phase have opportunities to follow individualised SACE (South Australian Certificate of Education) journeys or engage with the many opportunities within VET (Vocational Education and Training) by linking with our very own RTO. Our Industrial kitchen offers opportunities in C11 Hospitality and Cookery for our students to engage in real life knowledge and skills to take further in our community.
